

NATION TO DECIDE  
SALISBURY'S PLANSTHE NEW PRIME MINISTER AP-  
PEALS TO THE PEOPLE.

The Responsibility of Forming a New Ministry Accepted With Conditions—General Election Will Be Held—France Honors Carnot's Memory By Anniversary Services.

London, June 25.—The Marquis of Salisbury has definitely accepted the responsibility of forming a new ministry and the various Conservative agents throughout the kingdom have received official notice to prepare for an immediate dissolution of Parliament. The elections will probably be fixed for the last week of July or the first part of August. The Marquis of Salisbury conferred with the Rt. Hon. A. J. Balfour, the Conservative leader in the House of Commons, the Duke of Devonshire, the Unionist leader in the House of Lords, and with the Rt. Hon. Joseph Chamberlain, the Unionist leader in the House of Commons, at his house in London. After the conference, at 1:30 p. m., Lord Salisbury took the train for Windsor, where he had an audience with the queen, who formally tendered him the premiership. It is understood Lord Salisbury accepted.

At a meeting of McCarthyites it was decided to appeal to the Irish people at home and abroad for funds for the election.

The Times, the Post and the Daily News agree that Lord Salisbury's acceptance of the task of forming a ministry is conditional on the Gladstonians not opposing votes of supply and an early dissolution. The Times and the Daily News further believe such assurance has been given. Mr. Gladstone dined with Lord Rosebery, the retiring premier, last evening.

## IN CARNO MEMORY.

Assassinated President of France Re-  
membered by His Country.

Paris, June 25.—In the presence of enormous crowds the anniversary of the death of President Carnot, who was assassinated June 24 of last year by Caserio Santo, the anarchist, who was afterwards executed for the crime, was observed yesterday at the Pantheon with touching ceremony. In the official cortege were President Faure, M. Challeme-Lacour, President of the French Senate, and M. Brisson, President of the French Chamber of Deputies, followed by the Cabinet Ministers, Ambassadors, Senators and Deputies. The cortege arrived at the tomb at 10:15.

M. Faure in depositing a crown on the tomb said: "In the name of the republic, on the day on which is renewed the mourning of the country, I lay this crown upon the tomb of President Carnot." The religious ceremony took place in the church of La Madeleine at 11 o'clock.

It was noticed at the anniversary services that President Faure looked saddened and weary. The services at the Madeleine were attended by Mme. Carnot and family, the diplomatic corps, Ministers, Deputies, Senators, and also by literary men and artists, including Puvis de Chavannes, Bartholdi, Ambroise Thomas, M. Claretie, Prince Roland Bonaparte, and M. and Mme. Castelnau-Perier. The latter visited the Pantheon during the afternoon.

## DEMAND SEPARATE SCHOOLS.

French Canadian Conservatives Threaten  
to Force the Fight.

Ottawa, Ont., June 25.—No announcement has been made as yet concerning the dominion government's intentions regarding the Manitoba schools. Since the Manitoba legislature declined to re-establish separate schools three French ministers who are in the cabinet have been striving to convince Premier Bowell that his only hope of maintaining power is to pass a dominion law giving Catholics of Manitoba the right to devote part of their taxes to separate schools. The French ministers say there is a prospect of all the French conservatives from Quebec, twenty-eight in number, voting against the government if this is not done. Ontario conservatives have made no announcement, but say that few of them can vote for interference with provincial rights of legislation in all provincial matters. Manitoba's official reply is on its way to Ottawa and as soon as it is received the government will be compelled to take some action. The liberals are saying nothing, but are awaiting developments.

## INDIANS ON WAR PATH.

Cheyennes Raid a Ranch in Oklahoma  
and Burn Some of the Outbuildings.

Hennepin, Ok., June 25.—A report reached here yesterday of a raid made on Martin's ranch, sixty-five miles west of Dover, by a band of twenty armed Cheyenne Indians. Since the shooting of a member of that tribe last Wednesday trouble has been expected, and the cattlemen have been prepared. The only damage done yesterday was the burning of a few outbuildings and the stampeding of a small bunch of Martin's cattle. Settlers along the North Canadian river are becoming alarmed, and some are leaving their claims, fearing a general outbreak. Fort Cantonment, the nearest military post, has only a squad of ten soldiers, and in the event of a general outbreak would be unable to cope with the Indians. It is understood the commanding officer at Cantonment has called for help. There are over 300 Indians on the reservation.

## TO PRAY ABOVE CLOUDS.

Features of the Coming Conference of  
the Epworth League.

Chattanooga, Tenn., June 25.—Preparations for the second international conference of the Epworth league to be held here this week are complete. The immense assembly tent, 35x195 feet, has been erected and the seats and platform placed in it. This big canvas was originally the property of P. T. Barnum's circus, and has a seating capacity of 10,000 people in the auditorium, while 1,000 singers composing the choir occupy gallery seats raised above the broad dais for the visitors of honor. The feature of the four days' session will be sunrise prayer meeting to be held every morning on Lookout Mountain above the clouds. Homes have been secured for 15,000 people, the advance guards of whom are already beginning to arrive.

## Fitzsimmons' Trial Begun.

Syracuse, N. Y., June 25.—Bob Fitzsimmons appeared in court yesterday to answer to the indictment charging him with the killing of Con Riordan, his sparring partner, in the course of an exhibition given in this city last winter. The judge overruled a challenge for actual bias made by the attorney for the defense on the ground that the juror was a church member. It was also ruled that jurors prejudiced against prize-fighting, unless such prejudice existed in this particular case, was not sufficient to disqualify. The indications are that the extra panel of fifty drawn for the trial will not furnish a jury.

## Fire at a Military Post.

San Francisco, Cal., June 25.—The second incendiary fire within a week on the Presidio military reservation occurred at 2:30 o'clock this morning. This time the Post exchange was selected by the firebugs. The entire building was destroyed and Frank Roth, employed by Sutler, who leases the exchange, may die from burns received before being taken from the building. Evidently an effort was made to have the fire communicate with the officers' dwellings, which adjoin the building. Roth is in the military hospital in a critical condition.

## Death Quickly Follows Crime.

Leavenworth, Kas., June 25.—Last night the police arrested Ed Burns, a young married man, on the charge of attempting to commit a criminal assault on a 13-year-old girl, whom he had enticed to his home. Just as Police Officer Frank Clark was unlocking the city jail door the prisoner sprang into the darkness and ran for liberty. The officer fired two shots, one of which struck the fugitive in the back and penetrated the intestines, making a fatal wound. He can not live.

## Alabama State Troops.

TWO BIG FIRMS MEET  
BUSINESS REVERSESFAILURES OF MORE OR LESS  
IMPORTANCE.

Omaha Commission House Assigns At Lincoln, Nebraska—Assets and Liabilities Equal Each Other In a Failure at Cincinnati—Omaha Firm Will Pay Up In Full.

Lincoln, Neb., June 25.—The Lincoln branch of the Omaha commission house of Duncan, Hollinger & Co. has closed down. J. T. Duncan came down from Omaha Sunday upon information leading him to believe that everything was not right, and upon looking over the books found the local manager, W. G. Beach, had allowed himself to get behind in his accounts. He secured a written statement from Beach to the effect that he had largely overdrawn and used the money in speculation on his account, losing heavily, while he allowed patrons to also overdraw heavily. Mr. Duncan says Beach has used several thousand dollars of the firm's money and that his own and patrons' shortage will reach nearly \$20,000. Mr. Beach says he is being made a scapegoat of. He has not been arrested. It is doubtful if the office reopens.

Omaha, Neb., June 25.—Duncan, Hollinger & Co.'s office here was closed yesterday. The bookkeeper is checking up accounts in the Omaha office and announces that business will soon be resumed and that the firm expects to be able to pay its liabilities in full.

## CINCINNATI MAN ASSIGNS.

Assets and Liabilities Equal One Another,  
When Adjusted.

Cincinnati, O., June 25.—John B. Specker, doing business as Specker Bros. & Co., wholesale dry goods, Elm street, assigned yesterday to Adam Kramer. The assignment is a direct result of injury to his credit because of his relations with the recently suspended Commercial National Bank. His assets are said to be \$750,000, with liabilities less, though not definitely ascertained. Preferences amounting to \$100,000 were given. The largest is to the First National Bank, \$47,500; the next to the Little Sisters of the Poor, \$20,000; and another of \$10,000 to Conrad Ober-schmidt. Mr. Specker proposes to meet his creditors and make an effort to continue his business.

## FOR A HEAVY DEBT.

Baltimore Courts Asked to Decide a  
Large Suit.

Baltimore, Md., June 25.—Suit for the largest amount ever entered in the Baltimore courts has been instituted by Messrs. Ryan and McDonald, the contractors who constructed the Baltimore and Ohio railroad company's belt line tunnel just completed under this city. The suit is for \$900,000 against the Maryland Construction Company. This claim is based on alleged work done, material furnished, and money loaned by Ryan and McDonald to the construction company, that paid out at its request, that due to Ryan and McDonald, and that received by the construction company for the use of the plaintiff. The Maryland Construction Company, the stock of which is held by the stockholders of the Baltimore and Ohio railroad, contracted with Ryan and McDonald to build the tunnel according to plans and specifications prepared by Baltimore and Ohio engineers for \$1,700,000. As the work progressed it was discovered the quality contracted for would not answer the purpose on account of the peculiar ground formation and superior work was done. The difference is sued for.

WHITE MAN HANGED  
BY A SOUTHERN MOBUSUAL ORDER OF THINGS IS  
REVERSED.

For the Burning of Negroes' Cabins An Indignant Mob Strings Up John Frye, in Arkansas—His Unseemly Levity Rebuked—Quick Work Done By the Telephone Pole Route.

New Orleans, June 25.—John Frye, a young white man, was lynched at Gretna, opposite New Orleans, yesterday. He was the leader of a gang of toughs who for months have kept Jefferson Parish in a turmoil by setting fire to the cabins of colored people at night. Usually their crimes were committed for absolutely no other purpose than malicious mischief, though robbery was sometimes added. Sunday night the home of an aged colored woman was fired in her absence. An old negro man charged John Frye, James Whitesides, Gus Raffo, and Frank Straley with the arson, whereupon the four men beat him into insensibility and threatened to hang him. All these parties were at once arrested except Frye, who escaped to his home. He was arrested there at 2 o'clock in the morning. He was marching to the parish jail when twenty-five men appeared, leveled their pistols at Policeman Goodlett, and demanded his prisoner. He made no resistance, and the mob speedily bound Frye's arms and legs, threw a rope over the head of the swearing and struggling man, and hauled him up to the stringer of a telegraph pole.

## FIGHTING IN CUBA.

Insurgents Holding Their Own in the  
Sunny Island.

Havana, June 25.—An important engagement has taken place on the plantation of San Jose, near Placetas, Province of Santa Clara. The insurgent leader Casalles has been killed and his body has been identified. Casalles is the former Major of the Camajuani Regiment of Volunteers, whose desertion to the enemy with many of the soldiers of the regiment caused Col. Linero, commander of the Camajuani Regiment, to commit suicide.

Conflicts between the insurgents and government troops are daily occurrences all over the island. There are rebel forces within fifty miles of Havana, and the landing of a filibustering expedition near here is not only feared but expected. Gen. Gomez has executed six residents of Puerto Principe for begging him to surrender or leave that part of the island.

DeWitt Talmage, who is engaged to lecture at Clear Lake next Sunday, and to which Sunday excursions are advertised to run on all railroads centering at Mason City, was roundly denounced from the Methodist and other pulpits of this city yesterday. Mr. Talmage was severely censured for allowing himself, for a monetary consideration, to be the attraction for causing many to desecrate the Sabbath.

## The Manitoba School Fight.

Ottawa, Ont., June 25.—The Protestant supporters of the government have done their utmost to deter the government from interfering with the act of the Manitoba Legislature doing away with separate schools. ## MASSACRE AT SAMA.

Spanish Soldiers Put to Death by  
Rebels.

New York, June 25.—A special from Boston says: "The steamer Breidablik, which has arrived from Sama, Cuba, confirms the story of the massacre of Spanish soldiers. At Sama several of the Spaniards were killed and quartered and nailed to trees near the beach and others were taken prisoners. Since that massacre a large Spanish army, with headquarters at Gibrara, some fifteen miles distant, is engaged in fighting the rebels in the vicinity of Barcala, about ten miles inland from Sama. A regiment of soldiers is stationed at Sama and every vessel that enters the harbor is now placed under the care of the Spanish soldiers. Four of these soldiers occupied the deck of the Breidablik during her stay in that port and watched every visitor who came aboard the ship. The cargo also was watched while it was being shipped and care was taken that nobody came away on the vessel who did not belong on her. This is the first time that soldiers have been stationed on the Breidablik. The vessel was thoroughly searched on her arrival and every vessel that enters the harbor from this port will be treated in the same way."

A special from Gainesville, Fla., says F. R. Anderer has just received a letter from Maj. Hanna of the Sixth regiment, Cuban volunteers. Among other things Hanna says: "We have just finished a very successful expedition against the Spanish. Col. Rodriguez received orders from Gen. Gomez on the 14th to start for Manati, where a battalion of Spanish soldiers was stationed. So at 1 a. m. on the 15th we started on our mission. Our march was a forced one as we had to move quickly to surprise the enemy. At midnight of the 16th our scouts reported Manati a mile to the front. So, after two hours' rest, we received the command 'Forward, march,' and our work had commenced. Col. Rodriguez detailed companies A and B, and, placing them under my command, ordered me to make a detour and attack the enemy from the north to draw their attention while he with the main body of troops attacked from the rear. The attack was started at 4 a. m. I commenced my attack by driving in their pickets and surprising them completely, for they had not expected any insurgents within miles of them. Their commander immediately formed them to receive us, but by this time my two companies had reached the shelter of some buildings and were pouring a deadly fire into their ranks from our Winchester. Just then our main force came up and attacked them in the rear, sending a disastrous fire among them, which was repeated again and again until the Spaniards, finding themselves between two fires, broke and fled after firing one volley, some of them flinging away their guns in their haste to escape. Their commander was a brave man and sought to stay them, striking down two of them with his sword, but it was in vain. So, finding himself deserted by his men, he surrendered to Col. Rodriguez. Our men pursued the Spaniards and succeeded in taking 250 prisoners. Our loss is fifty-two killed and wounded and the Spanish loss is estimated at 139. We captured 50,000 rounds of ammunition and about 400 rifles. Our distinguished prisoner reports himself as Col. Sanchez and his command as the Ninth battalion of Spain. From one of the prisoners I learn that they have lost 145 men from yellow fever alone. We are now busy burying the dead and caring for the wounded of both sides. I received a scalp wound."

A special from Havana, Cuba, says: "According to official information received here twenty-two of the enemy have been killed in an encounter with rebel bands near Cienfuegos. Capt. Gen. Martinez de Campos arrived this morning at 3 o'clock from Cienfuegos. At Quivican, near Havana, the insurgents have raised a small band of men. It is reported from Remedios, province of Santa Clara, that the insurgent leader Zayas has been killed."

## FAVORABLE TO US.

The Change in England's Ministry Is to  
Our Advantage.

Louisville, Ky., June 25.—James B. McCreary, Chairman of the House Committee on Foreign Affairs, is in the city attending the Democratic convention. Mr. McCreary said his experience with the English members of the conference gives him assurance that the advent of the Salisbury ministry will be in the interest of bimetalism, as Lord Salisbury, Mr. Balfour, and others are more favorable than Rosebery and his associates were for such a conference. McCreary said he was more hopeful now than ever before for such international action as would settle the ratio between the metals. He not only regards Lord Salisbury as friendly to an international monetary agreement, but as a great statesman who will be more liberal in his general policy than Rosebery. There were active friends in England of bimetalism. Lord Salisbury would recognize them. Mr. McCreary referred to Sir William Housworth, Mr. Balfour, Mr. Chapin, and others who were friendly to bimetalism and who were close to Salisbury. While England had maintained a gold standard since 1816, Mr. McCreary had no doubt bimetalism had many friends among the manufacturers, agriculturists, and business men in England, and this sentiment was growing so strong the ministry would be sustained in supporting an international agreement. Mr. McCreary regarded Salisbury as better equipped every way than Rosebery for a more liberal and more enlightened policy, which would extend to Nicaragua, Venezuela, and other American countries in which the United States is interested.

## THREATENED THE PRESIDENT.

Lunatic Said He Was Going to Assas-  
sinate Mr. Cleveland.

Clyde, N. Y., June 25.—William Campbell, an old soldier from Buffalo, N. Y., is in jail here. He told Chief of Police Hamilton that he was on his way to Washington to kill Grover Cleveland. "I know the old chap well," he said, "and I mean to put him where he won't be able to do the old soldiers any more harm." Realizing that he had a crazy man to deal with, Chief Hamilton replied that he, too, longed to perform the same act, and suggested that they go together. "President Cleveland could be more easily assassinated by two men than by one, you know," he said to the lunatic.

To this the man assented and away the two started. Chief Hamilton kept the man talking about himself and telling how he would carve President Cleveland until the village lockup was reached. At this point the man grew suspicious and wanted to know what they should do in that building. Chief Hamilton replied that they would step in and talk the matter over for a minute or two. The next second the lunatic was hustled into a cell.

The South works of the company are now engaged on an order which it is said will keep it working night and day for the remainder of the year. At the present time the outlook in the steel trade in this city is very bright. The increase of wages just announced is to recompense the employees for the cut made in September, 1893.

## THE LINE IS DRAWN ON PRIVATE SEWERS

### COUNCIL TAKES ACTION ON THE MATTER.

Hereafter a Sewer Committee Will Have Charge of Such Work—Sixty-six Electric Lights to Be Put Up in Place of the Oil Lamps—Other Business Done.

The common council called a halt last evening in the matter of constructing private sewers, and amended the rules so that the committee on sewers will hereafter be one of the standing committees to whom all matters relating to the construction of sewers will be referred. This course was the outcome for another petition for permission to construct a private sewer on Court street, to connect with another private sewer on East Milwaukee street, having an outlet at Milwaukee street bridge. According to the Loweth system the sewer sought to be constructed by this new franchise, empties into the river at Racine street.

Considerable other important business was considered, Mayor Baines presided and all the aldermen being present except Alderman Heddles. A drinking fountain will be placed at the intersection of Madison and Highland avenues for the accommodation of people visiting the cemetery; sixty-six new arc lights were ordered, which are to take the place of all the oil lamps after September 22, at which time the oil contract expires, the report of the special committee appointed to appraise fire damage to the Zuill building, east of the Grand Hotel, reported that in their judgment the damage exceeded 50 per cent of the value, consequently the buildings or the wrecks must be razed, and make room for a building of fire proof material. The chief of police was directed to enforce the wire ordinance of the city. Many orders for street improvements were adopted. The roadway of a portion of South Bluff street is to be narrowed down to twenty-six feet, the remainder to be devoted to sidewalk and lawn purposes.

#### Council Goes to Work.

After reading the journal of the last three meetings, the council went to work. The city engineer reported the profile and grade of Center, Palm and Pine streets in the Fifth ward, and of Fourth avenue in the Second ward, which was referred to the highway committee, and subsequently approved and placed on file. The report of the special committee—George McKee, F. E. Fifield and J. T. Wilcox—appointed to ascertain the fire damage on the Zuill buildings on Milwaukee street, reported that in their judgment the damage exceeded 50 per cent. The report was accepted and placed on file. A petition signed by a number of South Bluff street residents, asking that a new grade be established on the street between South First and Racine street, making the roadway twenty-six feet wide and the remainder from the present sidewalk line to the curbing be filled in and sodded was received and granted.

The clerk notified the council that he had received four bids for furnishing the city with lumber and tile pipe, which were opened as follows:

Lumber Bids.	
Lovejoy & Co.	\$14 50 per M
Fifield Bros.	14 00 "
David Jeffris	13 00 "
Schaller & McKee	15 00 "

These bids were for 12, 24 and 16 feet. Each additional foot was fifty cents per thousand in each bid.

Lovejoy & Co. put in a bid for six-inch round posts at 16 cents each or 18 cents each sawed and delivered to any part of the city.

**Sewer Pipe.**

Schaller & McKee 16 25 37 40 60

Whitehall Fire Clay Works 13 18 23 32

The Whitehall Fire Clay Works was not considered a bid, their proposition being in the form of a communication and it was not considered.

The bids were referred to the highway committee and the council took a brief recess for that committee to examine the several bids. On the report of this committee the lumber contract was awarded to David Jeffris, and the tile pipe contract to Schaller & McKee.

Alderman Hemming, of the finance committee, reported in favor of allowing a number of miscellaneous bills against the several funds, which was adopted.

#### The Gas Committee Report.

Alderman Smith, of the gas committee, submitted the following report, which was adopted:

of the city of Janesville, Wisconsin: Gentlemen: The contract of the city of Janesville with the Globe Light and Heat company for lighting part of the city with oil lamps may be terminated, should the council so determine, on the 22d day of next September. Should the council determine to no longer use the oil lamps, notice should be given to the Globe, Light and Heat company within sixty days of September 22. Should such notice not be given the contract with the company will remain in force until September 22, 1898.

In the judgment of the committee on street lighting, the contract between the city and the company should be terminated, and all oil lamps dispensed with. Should this not be done, parts of the city must be left without street lights, or else a number of oil lamps must be added to those now in use. This we do not deem advisable, as that means of lighting the streets is not satisfactory.

The committee would therefore recommend that the contract with the Globe Light and Heat company be terminated by notice, and under the existing contract with Pliny Norcross, sixty-six arc lights to be added to the number now used by the city upon the streets, such lamps to be located by the committee on street lighting, and that such additional lights be ready for use by the 22d day of next September.

#### Many Orders Adopted.

Orders were adopted as follows: By Alderman Kothman—directing the city engineer to establish a grade from North street to Western avenue and file profile of the same; also to report to the council what obstructions, if any, existed in said street; also directing the street commissioner to make necessary repairs on Jackson street south of Pleasant, repair Franklin street from Galena to Western avenue, build a block walk across School street on west side of Lincoln. By Alderman Stearns—placing a drinking fountain at the northeast corner of Madison and Highland avenues; repair North Franklin street from Bluff to Racine street; repair North Academy street from Race to Racine, repair Magnolia road from Madison avenue; build a block crosswalk across North River street south side of Racine street and a block crosswalk across North Franklin street south side of Wall street. By Alderman Inman—directing city engineer to make profile and grade of South Bluff street preserving the present contour of the center of the street and reducing the driveway to twenty-six feet in width, also to set stakes showing the lines of said driveway.

By Alderman Winslow—placing an electric light in court house park for three months; for the building of sidewalks on Wisconsin and Division streets; to cut the weeds in the Third ward; to repair Logan street. By Alderman McLean—to repair sidewalk on the west side of the Grant school building. By Alderman Burnham—for a tile culvert across Hyland avenue; to repair North Main street between Milwaukee street and Fourth avenue. By Alderman Smith—directing the clerk to notify the Globe Heat and Light Co. of the termination of the contract for lighting the city with oil lamps.

Alderman Winslow presented an order granting permission to a number of Third ward residents to construct a sewer, having for an outlet the river at Milwaukee street bridge.

#### The Sewerage Question.

Alderman Burnham thought this sewer problem was becoming quite complicated.

"These proposed sewers were all to empty into the river at Milwaukee street," he said. "The sewer now emptying into the river at that point was a nuisance, and the parties owning it were doing the best they could to remedy it. The Loweth plan of sewers adopted by the city called for a great portion of the sewers on the hill to empty into the river at the foot of Racine street. He thought that a sewer committee should be appointed and that all petitions of that nature which were coming in at nearly every meeting could be referred to the committee for investigation and be reported to the council. The city should build the main sewers and then let the private parties attach to them if they desired, otherwise the city would be bound to get into trouble when it came to put in a system of sewerage."

Mayor Baines stated that he was not in favor of allowing all these requests for private sewers, and that the city should take some action in accordance with the Loweth plans.

Alderman Burnham moved that Rule 13 be amended by adding to the list of standing committees one to be known as a committee on sewerage. Adopted.

#### Wire Ordinance Violated.

Alderman Smith called attention to the fact that the wire ordinance was being violated by the Wisconsin Telephone Co.; also that in setting poles that company did not equip the same as called for by their franchise; that up to January 1, last, according to the report of Electrician Kline, they had ninety-three poles below the required height, and thirty-two poles of regulation size which were not equipped. The clerk was directed to notify the manager of this fact, and the chief of police was directed to enforce the wire ordinance.

Alderman Winslow stated that the men who collected garbage in the city had been notified not to dump any more in the city, and inasmuch as the city had no place where such refuse could be deposited, the matter was, on his motion, referred to a committee of one, and the mayor appointed Alderman

F. A. Spoon Receives Many Inquiries in Regard to the Boston Trip.

F. A. Spoon is daily in receipt of from two to a half dozen inquiries regarding the Y. P. S. C. E. excursion to Boston, and the indications are that Janesville and Rock county will be well represented. Since publishing the former announcement the managers have received a rate of one fare for the round trip from all local points in the state to Chicago. This added to \$19 will give the rate to Boston and return.

The local railroad agent can inform you about return routes and will ticket you according to your desires, by your applying to him.

Tickets are good for returning any time from July 12 to 22, and by application to joint agent, may be extended to July 31, reaching Chicago August 3. This is the very best they have been able to do.

Passengers ticketed by the official route will be granted stop-over privileges on the return trip, during the life of the ticket.

Parties desiring sleeping car and hotel accommodations should notify this committee at once and remit the price of a sleeper (\$5.50 for double berth from Chicago to Boston.) This is very important in order to insure first-class accommodations. Hotel rates for each person \$1.00, and 75 cents for room, two or more in a room. Room in private families at 50 cents and 75 cents.

Church headquarters have been changed to Warren Avenue Baptist church, corner of Warren Avenue and West Canton street. The special train leaves Chicago, Dearborn street station, Monday evening, July 8, on the arrival of Wisconsin state delegations. F. A. Spoon will be in King & Skelly's every Wednesday evening to answer questions.

## COURT IS TO SOLVE AN ODD WILL CASE

### AN INTERESTING CONTEST BEFORE JUDGE BENNETT.

John W. Cole's Complicated Testament Left the Income of His Property To His Family After Which the \$80,000 Was To Go To The City of Watertown.

Arguments were made in a peculiar case in the circuit court yesterday afternoon and upon Judge Bennett's decision, \$80,000 is hanging.

When John W. Cole, one of the first settlers of Watertown died in February, 1894, he left a will providing for the disposition of about \$80,000 worth of property, mostly real estate. This was only about a third of what he was generally considered worth, the balance having previously been disposed of. In his will Mr. Cole virtually bequeathed this \$80,000 worth of property to the city of Watertown but it was placed in the hand of three trustees named by the testator, to be held in trust by them for the benefit of his wife, Eliza C. Cole, and his son, Oscar A. Cole, during their natural lives, and at the death of both of them the city then to gain possession of the same. The will, however, is an extremely odd and complicated one, containing many conflicting parts, and its mysteries have baffled the best legal talent, some even having declared it to be invalid. If the latter be true, the city would of course lose its interest in the will and the property be divided among the lawful heirs. In view of the uncertain points in the will the executors, D. H. H. Beurhaus and William Humphrey, began an action in the circuit court before Judge Bennett for an opinion as to its proper construction, the beneficiaries, Eliza C. Cole, Oscar A. Cole and the city of Watertown being made the defendants.

#### The Bequests Made.

Mr. Cole's will designated his bequest to the city to be put to the following uses: A certain portion of the property to be sold for the erection and maintenance of a public library and business men's club; the farm directly north of the city to be set apart and maintained for a public driving park and agricultural grounds twenty acres in the Seventh ward for a home for the aged and poor of Watertown; the homestead in the First ward for an old ladies' home. The latter property was to be conveyed to the city as soon as possible. What was deemed ample provision was made for the maintenance of these several institutions.

The will states: "In event the city declines to accept the property in trust for the purposes named, then any trustees are directed to sell said property and divide the proceeds among the next of kin according to law."

Acting upon this instruction the executors in their summons and complaint state that the time has arrived for the division of the property among the lawful heirs, inasmuch as the city has thus far declined to accept the endowment. On the other hand the mayor and city clerk claim that a deed to none of the property has as yet been offered the city. It is presumed that after Judge Bennett renders his opinion in the matter of the construction of the will, an appeal will be taken to the supreme courts, regardless of whose favor it is in, and thus the controversy kept in the court for a long time to come.

1630—Confession of Augsburg, drawn by Luther, Melancthon and others, presented to Charles V and read to the German diet. The Augsburg confession formed the basis of the present faith of Protestant Germany. Its object before the diet was not attained, and the Lutherans were ordered by the emperor to bring themselves into conformity with the requirements of the Roman Catholic church.

## REVIVAL OF CONFIDENCE.

From all parts of the country business is reported as improving, and the outlook for fall trade is very encouraging. This is especially true of the manufacturing districts where labor is finding steady employment and usually at good wages.

The democratic party would like to have the country believe that these improved conditions exist because of the beneficial results of tariff reform, ignoring the fact that the labor and capital of the country have lost more money during the past two years than can be regained in the next ten.

The only reason why times are improving, and prices advancing, is because public confidence is being restored, and the channels of trade are reaping the benefits. Not confidence in the tariff reform or the Democratic party but confidence in a more intelligent administration, as the result of the expression at the polls last November. The people generally realize that they made a mistake in 1892, and every opportunity since has been used to correct the blunder. The administration with a zeal worthy of a better cause, professes more wisdom than the people, and with a blindness that is stubborn and persistent, still advocates free trade and tariff reform. Sink or swim, the reform president proposes to stand by his colors. Heeding not the voice of thirty states in 1894, he would convince the nation that he is right. The man who won't see is more to be pitied than the man who can't. He not only deserves defeat, but he courts it.

Democracy is unfortunate in having that kind of a leader, but the country is larger than the democratic party. With confidence fully restored and the hum of industry again filling the land, discontent will vanish and with it will go the silver craze, and demand for cheap money. The revival of confidence should be hailed with joy by all good citizens.

## The Result of Advertising.

A lady in the first ward who has quite a family of children, thought it would be a good idea to bake up some cookies and let the little boys sell them in order to keep them from out of mischief during vacation. Yesterday her boy Willie found a lady on Washington street to whom he sold a dozen of his cookies, and she handed him a quarter.

The sale being his first, he could not make change, and the lady suggested he might run down to the store, a block or so away, and get it. After waiting for his return, the lady became worried about the little chap, and informed his mother of what had happened. Mrs. — immediately started out to find her boy, and had not gone far when she met him coming across the railway track all out of breath. On being asked where he had been, he said:

"I didn't know I could get change any place but at Mr. Lowell's Hardware store and I guess the lady is getting tired of waiting for me."

Even the children know that Lowell, the hustler, is the man to do business with. His name is truly a household word.

## Truthful Sayings.

What people want these days are good goods at medium prices. We have 'em. Put this in the lining of your hat and don't forget it. Lowell the Hustler.

## ASSORTMENT OF DRUNKS IN COURT

Noted Men And Women Sent To Jail By Judge Phelps.

There was an interesting assortment of disorderly drunks introduced to Judge Phelps this morning in the municipal court. First among the number was P. E. Bigelow—better known, perhaps as "Doctor" Bigelow, the man with the broken neck. He was in Beloit recently, but wandered up to the Bower City and fell into the hands of Chief Acheson. The other one was Nora Dulio of "Snipe Hill," she being followed by John C. Powers, "the mayor of Afton," who was arrested by Officer Hogan and Chief Acheson while executing a peculiar dance before a crowd at the corner of Milwaukee and Jackson streets. Rolley McQuillen, of Lima, made the assortment complete. He and the "doctor" are well advanced in years, old enough to swear off, but their love for liquor is too strong. Each one pleaded guilty to the charge of being disorderly drunks and got three and one day in jail each. Mayor Powers' Afton quickstep resulted in his getting a three days sentence while Nora Dulio will not return to Snipe Hill for 10 days.

## DOG TRIED TO BITE H. C. WEISEL

A Savage Canine Springs at Him and Tears His Clothes.

While H. C. Weisel was crossing Milwaukee street last evening, a savage dog sprang at him, burying his teeth in Weisel's clothing, and tearing his trousers in a number of places. The animal belonged to Mrs. Bertha Johnson, of North River street. The police were notified of the affair, and made a thorough search, but as yet the dog has not been found.

## A LOSS OF \$80,000,000!!!

Labor saving inventions or discoveries have often been violently opposed on the ground that they take workmen's bread out of their mouths. Although experience has shown the fallacy of that theory the feeling, or fear, was natural.

But it is not so much the lack of work as the inability to work that causes poverty and suffering. In England and Wales every workingman averages ten days of sickness every year, with a total loss of wages for all about \$80,000,000 per year. In all countries the prevailing disease is indigestion and dyspepsia and its consequences—such as rheumatism and other ailments resulting from impure blood; a result of dyspepsia.

No thorough, rapid and trustworthy cure for this universal and obstinate malady existed until the Mt. Lebanon (N. Y.) Community of Shakers placed upon the market their now famous remedy called the Shaker Digestive Cordial. It is prepared from roots and herbs cultivated solely by them. Nothing more certain, safe and palatable can be imagined. It expels the impurities from the body by means of the bowels, kidneys and skin, and imparts vigor and tone to the stomach—upon whose proper action all our strength, activity and endurance depend. For many years the Shakers have given earnest attention to this subject and their final success is thankfully admitted by the multitudes who have been cured by the cordial after all other means have failed. Their high reputation for skill as herbalists, for honesty and religious sincerity guarantees whatever they recommend.

No invention can take your work from you if you are able to work. Health and strength are the vital considerations.

In order to find whether the Shaker Digestive Cordial is adapted to your case try a ten-cent bottle. Its effect is immediate. For sale by nearly all druggists.

"It is all very well," said his Satanic Majesty, "to talk about the greatness of Socrates and Plato and Aristotle; but they don't cut any ice with me."

MR. A. H. Gransby, of No. 158 Kerr St., Memphis, Tenn., writes that his wife had cancer which had eaten two large holes in her breast, and which the best physicians of the surrounding country treated and pronounced incurable. Her grandmother and aunt had died of

Cancer

and when told this, the most eminent specialist of New York, under whose treatment she was placed, declared her case was hopeless. All treatment having failed, she was given up to die. S. S. S. was recommended, and astonishing as it may seem, a few boxes cured her sound and well.

Our treatise on this disease will be sent free to any address.

## WILCOX IS WINNER IN THE LAWSUIT

JUDGE BENNETT DECIDES IN  
HIS FAVOR TODAY.

Defendant Is Not Responsible For The Tobacco Grown By L. G. Walkley; Garnished By the Beloit Bank; and Burned In The Late Fire—Other City News.

NOTWITHSTANDING the fact that C. T. Wilcox has been sorely tried for the past few days trying to mend the lower end of the East Milwaukee street sewer, he is one of the happiest men of all the old settlers in Rock county today. He has won a suit at law in the circuit court, Judge Bennett deciding in his favor today. The case was that of the Second National Bank of Beloit against C. T. Wilcox, garnishee of L. G. Walkley, et al. Walkley was a tenant on the farm belonging to Wilcox, and among the crops raised was a quantity of tobacco. A misunderstanding existed between landlord and tenant, and Wilcox had the tobacco stored in his building on Court street, which was afterwards destroyed by fire, including the tobacco. Suit was brought against Wilcox to recover the value of the tobacco, the court holding that Wilcox was not liable.

## BIG PICNIC WAS A GREAT SUCCESS

LARGE CROWD AT THE OLD  
SETTLERS' OUTING.

Big Gale of Wind and a Copious Rain-fall Soaked Up the Ground But It Didn't Dampen The Ardor Of The Pioneers—Speeches Made By Well Known Men.

Rock county pioneers met and renewed old acquaintances at Crystal Springs Park this afternoon, when the first annual picnic of the Early Settlers' association was held at that popular resort.

The steamers Mayflower and Columbia were busy all the afternoon conveying people to Crystal Springs, and there was a large gathering of the old settlers, as well as many of the younger people. There was no regular programme of exercises, it being a sort of free-and-easy outing or congregation of the early settlers. M. G. Jeffris was booked for the regular address, and spoke in his usual entertaining way for about twenty minutes, music by the Imperial band

EX-GOV. W. D. HOARD.

having been the first number. To Dr. William F. Brown, of Beloit, and Dr. M. G. Hodge of this city was assigned the invocation of the Divine blessing and music by the band and several vocal selections followed. The balance of the time was taken up with short speeches relating to the early settlement of Rock county, which were given by Ex-Governor W. D. Hoard who spoke in his famously entertaining vein; Hon. L. B. Caswell of Fort Atkinson, E. D. Coe of White-water, President W. C. Whitford of Milton college, Hon. A. P. Lovejoy, Captain Pliny Norcross,

M. G. JEFFRIS SPEAKS.

and others who were called upon as time permitted. The weather was delightful and seemed just suited for the occasion, as up to 3 o'clock not a drop of rain had fallen, although clouds had broken the force of the sun's rays and made it pleasantly cool. Then the storm broke and for a few minutes the wind blew a violent gale and the rain came down in torrents but the breeze soon died down and although the sky remained overcast, the shower did not dampen the ardor of the old settlers in the least. Many people drove to the ground, besides those who went on the boat, and it may be said the "Early Settlers picnic" was one of the successes of the season.

Showers and Cooler.

## NEW OFFICER NAMED BY MAYOR BAINES

WALTER HOUGHTON IS GIVEN  
A POLICE STAR.

Appointment Was Announced This Morning And The New Patrolman at Once Went on Duty—Is Named To Succeed Ex Officer Kruse—Appointment Was Quite a Surprise.

Mayor Baines sprung a surprise upon Janesville people when it was announced that he had appointed a new police officer on the regular force, to succeed Patrolman John Kruse, whose term of office expired last April.

Patrolman Houghton has been a resident of Janesville but a short time, but he has seen much of the world, and those who are intimately acquainted with him say he will make a good officer. Mr. Houghton came to Janesville about two years ago. He is an Englishman and has traveled pretty much all over the world. He was in South America several years, and during the late war in Peru, was in that country engaged in railroad engineering. He finally came to the United States, and to Janesville, with his family, to make this city his home. He took out his papers and declared his intention of becoming a citizen of the United States on the 22d of March, 1894. He resides at 107 South Main street.

The appointment of police officers, excepting the city marshal, is wholly in the hands of the mayor, who is empowered to appoint as many special officers as he may deem necessary, but no such appointment shall extend beyond the first regular meeting of the common council thereafter unless confirmed by the council. The appointment of Mr. Houghton will, therefore, be reported to the council at their regular meeting next Monday evening, when if confirmed, he will hold his position for three months. If the council refuse confirmation, the mayor is at liberty to re-appoint him for another two weeks, or select some other person. While the appointment is somewhat of a surprise to many if not all the republican aldermen, none so far have raised any objections, and it is not known that they will.

The Telephone Company Did More Business Than They Expected.

The good work of Inspector P. J. Skolsky is fully appreciated by the Wisconsin Telephone Company as far as Janesville is concerned. Mr. Skolsky, after a thorough inspection of the telephone service in this city, pronounces it second to none. In about three weeks, eight long distance 'phones will be in use in this city, and the number of 'phones has increased in the past few weeks from 158 to 260. Mr. Skolsky has completed his work here, and left on the morning train for Milwaukee.

Mrs. J. H. LANSING, of South Glen's Falls, Saratoga County, N. Y., writes: "After my third child was born, I barely gained strength enough in two years' time, so as to be able to crawl about to accomplish the little house work that I had to do, and that only by lying down to rest many times each day; had sick headache very often, many pains and aches all the time. After I had taken one bottle of your 'Favorite Prescription' I could see a great change in my strength and less sick headaches. Continued taking the medicine until I had taken seven bottles of the 'Favorite' and one of the 'Golden Medical Discovery.' I am now able to do housework for myself and husband and two children. I also take dressing and enjoy walking a mile at a time, when I can have the time to do so. And I am sure it is all due to Dr. Pierce's Favorite Prescription as I know I was failing fast before I commenced to take it." Sold by medicine dealers everywhere.

SUNDAY'S SERMON  
BY DR. TALMAGE

"SISTERS OF CHARITY" LAST  
SUNDAY'S SUBJECT.

A Companion Sermon to "Woman's Opportunities"—Be a Grace Darling, a Marie Antoinette, a Joan of Arc—the New Woman.

ed was: Acts 9: 36: "This woman was full of good works and almsdeeds which she did."

Starting now where I left off last Sabbath in reciting woman's opportunities, I have to say that woman has the special and superlative right of blessing and comforting the sick. What land, what street, what house, has not felt the smitings of disease? Tens of thousands of sickbeds! What shall we do with them? Shall man, with his rough hand and heavy foot, and impatient bearing, minister? No. He cannot soothe the pain. He cannot quiet the nerves. He knows not where to set the light. His hand is not steady enough to pour out the drops. He is not wakeful enough to be a watcher. The Lord God sent Miss Dix into the Virginia hospitals, and the Maid of Saragossa to appease the wounds of the battle-field, has equipped wife, mother, and daughter for this delicate but tremendous mission. You have known men who have despoiled woman, but the moment disease fell upon them they did not send for their friends at the bank, or their partner in business, or their worldly associates; their first cry was: "Take me to my wife." The dissipated young man at the college scoffs at the idea of being under home influences; but at the first blast of the typhoid fever on his cheek he says: "Where is mother?" Walter Scott wrote partly in satire and partly in compliment when he said: "O woman, in our hour of ease, Uncertain, coy, and hard to please; When pain and anguish wring the brow, A ministering angel thou."

I think the most pathetic passage in all the Bible is the description of the lad who went out to the harvest-field of Shunem and got sunstruck—throwing his hands on his temples and crying out: "O, my head! my head!" and they said: "Carry him to his mother." And then the record is: "He sat on her knees till noon, and then died." It is an awful thing to be ill away from home in a strange hotel, once in a while men coming to look at you, holding their breath over their mouth for fear that they will catch the contagion. How roughly they turn you in bed! How loudly they talk! How you long for the ministrations of home! I knew one such who went away from one of the brightest of homes for several weeks' business absence at the West. A telegram came at midnight that he was on his death-bed, far away from home. By express train the wife and daughters went westward; but they went too late. He feared not to die; but he was in an agony to live until his family got there. He tried to bribe the doctor to make him live a little while longer. He said: "I am willing to die, but not alone." But the pulse fluttered, the eyes closed, and the heart stopped. The express trains met in the midnight; wife and daughters going westward—lifeless remains of husband and father coming eastward. O, it was a sad, pitiful, overwhelming spectacle! When we are sick we want to be sick at home. When the time comes for us to die we want to die at home. The room may be very humble, and the faces that look into ours may be very plain, but who cares for that? Loving hands to bathe the temples. Loving voices to speak good cheer. Loving lips to read the comforting promises of Jesus.

In our last dreadful war men cast the cannon; men fashioned the musketry; men cried to the hosts, "Forward, march!" men hurled their battalions on the sharp edges of the enemy, crying: "Charge! charge!" but woman scraped the lint; woman administered the cordials; woman watched by the dying couch; woman wrote the last message to the home circle; woman wept at the solitary burial attended by herself and four men with a spade. We greeted the general home with brass bands and triumphal arches, and wild huzzas; but the story is too good to be written anywhere, save in the chronicles of heaven, of Mrs. Brady, who came down among the sick in the swamps of the Chickahominy; of Annie Ross, in the cooper-shop hospital; of Margaret Breckinridge, who came to men who had been for weeks with their wounds undressed—some of them frozen to the ground; and when she turned them over, those that had an arm left, waved it and filled the air with their "hurrah!"—of Mrs. Hodge, who came from Chicago with blankets and with pillows, until the men shouted: "Three cheers for the Christian Commission! God bless the women at home!" then sitting down to take the last message: "Tell my wife not to fret about me, but to meet me in heaven; tell her to train up the boys whom we have loved so well; tell her to bear my loss like the Christian wife of a Christian soldier;" and of Mrs. Shelton, into whose face the convalescent soldier looked and said: "Your grapes and cologne cured me." Men did their work with shot and shell, and carbine and howitzer; women did their work with socks, and slippers, and bandages, and warm drinks, and Scripture texts, and gentle strokings of the hot temples, and stories of that land where they never have any pain. Men knelt down over the wounded, and said: "On which side did you fight?" Women knelt down over the wounded and said: "Where are you hurt? What nice thing can I make for you to eat? What makes you cry?" Tonight, while we men are sound asleep in our beds, there will be a light in yonder loft; there will be groaning in that dark alley; there will be cries of distress in that cellar. Men will sleep, and women will watch. Again, woman has a superlative right to take care of the poor. There are hundreds and thousands of them in all our cities. There is a kind of work that men cannot do for the poor. Here comes a group of little barefoot children to the door of the Dorcas society. They need

to be clothed and provided for. Which of these directors of banks would know how many yards it would take to make that little girl a dress? Which of these masculine hands could fit a hat to that little girl's head? Which of the wise men would know how to tie on that new pair of shoes? Man sometimes gives his charity in a rough way, and it falls like the fruit of a tree in the East, which fruit comes down so heavily, that it breaks the skull of the man who is trying to gather it. But woman glides so softly into the house of destitution, and finds out all the sorrows of the place, and puts so quietly the donation on the table, that all the family come out on the front steps as she departs, expecting that from under her shawl she will thrust out two wings and go right up toward heaven, from whence she seems to have come down. Oh, Christian young woman! if you would make yourself happy and win the blessing of Christ, go out among the destitute. A loaf of bread or a bundle of socks may make a homely load to carry; but the angels of God will come out to watch, and the Lord Almighty will give his messenger hosts a charge, saying: "Look after that woman. Canopy her with your wings and shelter her from all harm;" and while you are suffering in the house of destitution and the little ones around the room will whisper: "Who is she? Ain't she beautiful?" and if you listen right sharply you will hear dripping down the leaky roof, and rolling over the rotten stairs, the angel chant that shook Bethlehem: "Glory to God in the highest, and on earth peace, good will to men." Can you tell me why a Christian woman, going down among the haunts of iniquity on a Christian errand, never meets with any indignity? I stood in the chapel of Helen Chalmers, the daughter of the celebrated Dr. Chalmers, in the most abandoned part of the city of Edinburgh; and I said to her as I looked around upon the fearful surroundings of that place: "Do you come here nights to hold service?" "Oh, yes," she said. "Can it be possible that you never meet with an insult while performing this Christian errand?" "Never," she said—"never." That young woman who has her father by her side walking down the street, an armed policeman at each corner of the street, is not so well defended as that Christian who goes forth on Gospel work into the haunts of iniquity, carrying the Bibles and bread. God, with the right arm of his wrath omnipotent, would tear to pieces anyone who should offer indignity. He would smite him with lightning, and drown him with floods, and swallow him with earthquakes, and damn him with eternal indignations. Someone said: "I dislike very much to see that Christian woman teaching those bad boys in the mission school. I am afraid to have her instruct them." "So," said another man. "I am afraid, too." Said the first: "I am afraid they will use vile language before they leave the place." "Ah," said the other man, "I am not afraid of that. What I am afraid of is, that if any of those boys should use a bad word in that presence, the other boys would tear him to pieces and kill him on the spot." That woman is the best sheltered who is sheltered by Omnipotence, and it is always safe to go where God tells you to go. It seems as if the Lord had ordained woman for an especial work in the solicitation of charities. Backed up by barrels in which there is no flour, and by stoves in which there is no fire, and wardrobes in which there are no clothes, a woman is irresistible; passing on her errand, God says to her: "You go into that bank, or store, or shop, and get the money." She goes in and gets it. The man is hard-fisted, but she gets it. She could not help but get it. It is decreed from eternity she should get it. No need of your turning your back and pretending you don't hear; you do hear. There is no need of your saying you are begged to death. There is no need of your wasting your time, and you might as well submit first as last. You had better right away take down your check-book, mark the number of the check, fill up the blank, sign your name and hand it to her. There is no need of wasting time. Those poor children on the back street have been hungry long enough. That sick man must have some farina. That consumptive must have something to ease his cough. I meet this delegate of a relief society coming out of the store of such a hard-fisted man, and I say: "Did you get the money?" "Of course," she says; "I got the money; that's what I went for. The Lord told me to go in and get it, and he never sends me on a fool's errand."

Again: I have to tell you that it is woman's specific right to comfort under the stress of dire disaster. She is called the weaker vessel; but all profane as well as sacred history attests that when the crisis comes she is better prepared than man to meet the emergency. How often you have seen a woman who seemed to be a disciple of frivolity and indolence, who, under one stroke of calamity, changed to a heroine. Oh, what a great mistake those business men make who never tell their business troubles to their wives. There comes some great loss to their store, or some of their companions in business play them a sad trick, and they carry the burden all alone. He is asked in the household again and again: "What is the matter?" but he believes it a sort of Christian duty to keep all that trouble within his own soul. Oh, sir! your first duty was to tell your wife all about it. She, perhaps, might not have disentangled your finances, or extended your credit, but she would have helped you to bear misfortune. You have no right to carry on one shoulder that which is intended for two. There are business men who know what I mean. There comes a crisis in their affairs. You struggle bravely and long; but after a while there comes a day when you say: "Here I shall have to stop;" and you call in your partners, and you call in the most prominent men in your employ, and you say: "We have to stop." You leave the store suddenly. You can scarcely make up your mind to pass through the street and over on the bridge or on the ferry-boat. You feel everybody will be looking at you, and blaming you, and denouncing you. You hasten home. You tell your wife all about the affair. What does she say? Does she play the butterfly? Does she talk about the silks, and the ribbons, and the fashions? No. She comes up to the emergency. She quails not under the stroke. She helps you to begin to plan right away. She offers to go out of the comfortable house into a smaller one, and wear the old cloak another winter. She is one who under-

stands your affairs without blaming you. You look upon what you thought was a thin, weak woman's arm holding you up; but while you look at that arm there comes into the feeble muscles of it the strength of the eternal God. No chiding. No fretting. No telling you about the beautiful house of her father, from which you brought her, ten, twenty, or thirty years ago. You say: "Well, this is the happiest day of my life. I am glad I have got from under my burden. My wife don't care—I don't care." At the moment you were utterly exhausted. God sent a Deborah to meet the host of the Amalekites, and scatter them like chaff over the plain.

There are sometimes women who sit reading sentimental novels, and who wish that they had some grand field in which to display their Christian powers. Oh, what grand and glorious things they could do if they only had an opportunity! My sister, you need not wait for any such time. A crisis will come in your affairs. There will be a Thermopylae in your own household, where God will tell you to stand. There are hundreds of households where as much courage is demanded of woman as was exhibited by Grace Darling, or Marie Antoinette, or Joan of Arc.

Woman is further endowed to bring us into the kingdom of heaven. It is easier for a woman to be a Christian than for a man. Why? You say she is weaker. No. Her heart is more responsive to the pleading of divine love. The fact that she can more easily become a Christian, I prove by the statement that three-fourths of the members of the churches in all Christendom are women. So God appoints them to be the chief agencies for bringing this world back to God. The greatest sermons are not preached on celebrated platforms; they are preached with an audience of two or three and in private home-life. A patient, loving, Christian demeanor in the presence of transgression, in the presence of hardness, in the presence of obduracy and crime, is an argument from the force of which no man can escape.

Lastly, one of the specific rights of woman is, through the grace of Christ, finally to reach heaven. Oh, what a multitude of women in heaven! Mary, Christ's mother, in heaven; Elizabeth Fry in heaven; Charlotte Elizabeth in heaven; the mother of Augustine in heaven; the Countess of Huntingdon—who sold her splendid jewels to build chapels—in heaven; while a great many others who have never been heard of on earth, or known but little, have gone to the rest and peace of heaven. What a rest! What a change it was from the small room, with no fire and one window, the glass broken out, and the aching side and worn-out eyes, to the "house of many mansions!" No more stitching until 12 o'clock at night, no more thrusting of the thumb by the employer through the work to show that it was not done quite right. Plenty of bread at last. Heaven for aching heads. Heaven for broken hearts. Heaven for anguish-bitten frames. No more sitting up until midnight for the coming of staggering steps. No more rough blows across the temples. No more sharp, keen, bitter curses. Some of you will have no rest in this world. It will be toil, and struggle, and suffering all the way up. You will have to stand at your door fighting back the wolf with your own hand, red with carnage. But God has a crown for you. I want you to realize that he is now making it, and whenever you weep a tear, he sets another gem in that crown, until, after awhile, in all the tiara there will be no room for another splendor, and God will say to his angel: "The crown is done; let her up that she may wear it." And as the Lord of Righteousness puts the crown upon your brow, angel will cry to angel, "Who is she?" and Christ will say: "I will tell you who she is. She is the one that came up out of great tribulation, and had her robe washed and made white in the blood of the Lamb." And then God will spread a banquet, and he will invite all the principalities of heaven to sit at the feast; and the tables will blush with the best clusters from the vineyards of God, and crimson with the twelve manner of fruits from the Tree of Life, and waters from the fountain of the rock will flash from the golden tankards; and the old harpers of heaven will sit there, making music with their harps; and Christ will point

## MONEY MADE AT HOME.

Last month I cleared, after paying all expenses, \$235.38; the month before \$186.80 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station C, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

This country has a great variety of wonderful scenery, but none more beautiful and romantic than the famous Wisconsin Dells at Kilbourn, on the Chicago, Milwaukee & St. Paul Railway. There is nothing anywhere within civilized lines to equal the grandeur of the weird scenery abounding for a stretch of seven miles, from Kilbourn northward on the Wisconsin river. Its bold, rocky outlines towering skyward, assume shapes in conformation perfectly amazing. It canons and witches' gulches are features never to be forgotten, for there is nothing like them in America. Do not fail to enroll yourself as one of the great number who will take advantage of the excursion to this resort on Wednesday, June 26, over the Chicago, Milwaukee & St. Paul Ry. ## Don't Tobacco Spit or Smoke Your Life Away.

is the truthful, startling title of a book about No-To-Bac, the harmless, guaranteed tobacco habit cure that braces up nicotineized nerves, eliminates the nicotine poison, makes weak men gain strength, vigor and manhood. You run no physical or financial risk, as No-To-Bac is sold by E. B. Heimstreet, under a guarantee to cure or money refunded. Book free. Address Sterling Remedy Co. New York or Chicago.

The Point of the Pistol is an effective persuader, and there are many persons so unkind of the symptoms of oncoming disease that it would almost take that deadly argument to induce them to adopt precautionary measures. The best of these is a recourse to that fine botanic restorer, Hostetter's Stomach Bitters. It conquers malaria, rheumatism, kidney and bladder trouble, falling digestion, biliousness, and irregularity of the bowels, and completely restores the system against their further inroads. Its ingredients are drawn from nature's storehouse, consequently it is free from the objectionable attaching to many absolutely or semi-mineral remedies. For the delicate, infirm, convalescent and elderly it is peculiarly beneficial. It well merits continuous and systematic use. Take it at bed time to induce sleep, and between meals to stimulate appetite and digestion. The medical fraternity concur in endorsing it.
